Projects

2022-JUN	**Real-Estate App**	**Github Link**

Made a responsive Real Estate web app using Next js and Chakra UI .
It uses an API called Bayut API to get the information regarding properties in UAE and display them as well as filter them based on your needs.

2022-MAR	**Wikipedia-Search-Clone**	**Github Link**

Made a Wikipedia-Search-clone using Html, css and javascript.
It uses the MediaWiki API to get the search results.

2022-NOV	**Project InCoFIBS**	**Github Link**

It is website for the InCoFIBS 2023 conference. I contributed to this project by making some nextJs components in this website.

Achievements and Certificates

2022-OCT	**Udemy DSA using C and C++**	**Certificate**

Extra Curricular Activities

2021-NOW	**3D modeler, Game To Aim**	**Member**

I have been a part of the Game development club, Game To Aim, as a 3D modeller and have worked on a few games. The club helped me learn teamwork and gain confidence.

2022-NOW	**Tech Team, WebWiz**	**Member**

I have been part of the Web development club, WebWiz. It helped me learn web development and work on a few projects
